

TO: Federal Communications Commission – Joint Petition

FROM: Fred J. Major – Carthage, IN. 46115

RE: Comment on Consumer Bankers Association and other parties to establish business relationship (EBR)

DATE: July 1, 2005

I'm requesting that the Federal Communications Commission not honor the current petition before them that would allow/permit telemarketers to contact Indiana residences for sales solicitations.

As a private business owner working out of my home I feel that these unwanted and unsolicited calls infringe on my right of privacy and they are very disruptive and time consuming. Answering these calls takes valuable time out of my business schedule.

The current Indiana law is working for me and for the thousands of other Hoosier residences that have subscribed to the Indiana Privacy Telephone Law.

Thank you for your consideration and please be considerate of my privacy and not allow EBR on Indiana consumers
